

## **We could be better off by Far** (tune: Swinging on a Star) redone Jan 18

Jimmy Van Heusen and Johnny Burke. New words LSS

*Would you like a world without war?*

*Where there are no rich and no poor,*

*Where equality is the law?*

*Or would you rather be like: (1)May? (2)Hunt? (3)Trump?*

1. (Oh) May just happens to be leading the clique\*

of rich men who aim to make us sick.

Her cabinet is full of right wing brats.

Who look down on people from the working class.

So if you don't care a fig for worker's pay

You could end up like Treeza May.

*Chorus:*

2. (Oh) Hunt is a minister who hates what we've got.

He just wants to privatise the lot.

He says he cares about the National Health,

But his only interest is for private wealth.

So if you go round putting on a front,

You could end up like Jeremy Hunt.

*Chorus:*

3. (Oh) Trump is a president who doesn't have shame.

He looks out for anyone to blame.

He has no scruples and is never kind.

He's a twittering racist with a nasty mind

So if you don't give a toss and act a grump,

You could end up like Donald Trump.

And all these right-wing gits should be stopped;

before they change our lives to just dross.

We're the many; they are the few

So we've a real job to do

to make a world for me and you.
